

1. EXECUTIVE SUMMARY & CORE PROBLEM

The Core Problem in 1 Line: India has the world's richest Ayurvedic heritage, but Indian innovators face 25+ complex laws, unaffordable legal fees (Rs. 1-5 Lakhs), and rampant foreign biopiracy (e.g. US patents on Turmeric, Neem, Basmati).

Our Solution: IP SAKTI PATH is an autonomous, Responsible-AI navigation system that guides Ayurvedic startups from raw idea to legally protected innovation in under 2 minutes with zero login.

Key Differentiator 1: Grounded in Real Law

Every single recommendation cites codified Indian statutes (Patents Act Sec 3p/3e, BDA 2002, D&C Rule 158B, FSSAI 2022, WIPO GRATK 2024).

Key Differentiator 2: Safe Abstention

When legal evidence is insufficient, our AI honestly abstains ("Verified Evidence Insufficient") rather than hallucinating fake sections.

2. PITCH & LIVE PROJECTOR DEMO TIMELINE

Time	Tab / Visual on Projector	What to Say to Teachers & Evaluators
0:00 - 2:00 (Opening)	Home Page Knowledge Core Visualizer	"Good morning. Indian Ayurvedic innovators struggle with 25+ scattered acts. We built IP SAKTI PATH to give every student, startup, and traditional vaidya an instant, reliable IP roadmap."
2:00 - 5:00 (7-Step Flow)	IP Journey Wizard Click 'Load Demo' (Herbal Hair Oil)	"Watch how in under 2 minutes, with zero login, an innovator selects their formulation parameters, biological origin, and jurisdiction. The AI Research Room validates concordance across 7 engines."
5:00 - 7:30 (Visual Map)	IP Constellation Orbital Map + Node Inspector	"This is the IP Constellation. In one glance, innovators see Green (Relevant), Yellow (Review), White (Not Applicable), and Red (Specialist Review) across 10 statutory pillars."
7:30 - 9:30 (Showstopper)	Ask IP Sakti AI Click 'Test Safe Abstention'	"This is our key Responsible AI feature: Safe Abstention. Unlike generic chatbots that invent fake laws, our system refuses to guess when statutory proof is missing and tells you what to check."
9:30 - 11:00 (Deliverable)	IP Sakti Passport Click 'Download / Print'	"The final output is a printable IP Sakti Passport with an 88.5% Source Coverage Score, 91.4% AI Confidence, and an actionable statutory compliance checklist."
11:00 - 12:00 (Closing)	Source Vault / Escalate Official Portal Links	"All 25+ statutes link to government portals (ipindia.gov.in, nbaindia.org). For complex cases, DPDP-compliant tickets escalate to CIPAM and Ministry of AYUSH."

3. COMPLETE ARCHITECTURE & TAB REFERENCE GUIDE

Platform Module	Statutory & Technical Purpose	1-Line Script for Presenter
1. Knowledge Core	Canvas sphere linking 8 IPR nodes (Patent, TM, GI, Regulation, TK, ABS, R&D, Global).	"Visualizes how ancient knowledge connects to modern IPR."
2. IP Journey Wizard	7-step questionnaire determining regulatory and IP pathways without registration.	"Captures formulation parameters in under 2 minutes."
3. IP Constellation	10-node orbital map showing relevance (Green / Yellow / White / Red).	"A 360-degree radar of all applicable legal protections."
4. IP Sakti Passport	Printable blueprint with Source Coverage (88.5%) and AI Confidence (91.4%).	"The tangible output report ready for patent agents."
5. Formulation Classifier	Maps formulas to 6 statutory classes (ASU Classical, Proprietary 158B, Food, Cosmetic).	"Prevents fatal regulatory misclassification before launch."
6. Evidence Chain	5-hop verifiable trail: Claim -> Source -> Section -> Plain English -> Action.	"Proves zero hallucination with 100% statutory grounding."
7. Source Vault	25+ verified statutes with direct links to official Indian & WIPO portals.	"Direct gateway to official codified legal instruments."
8. Ask IP Sakti	Statutory RAG assistant with quick chips, confidence score, and Safe Abstention.	"24/7 regulatory oracle grounded in real laws."
9. Global Market Map	Cross-border matrix comparing India (ASU) vs US (DSHEA) vs EU (THMPD) vs WIPO.	"Guides international export compliance without legal confusion."
10. Human Facilitator	DPDP Act 2023 compliant consultation referral to CIPAM and AYUSH IPR Cells.	"Closes the loop by connecting users to registered patent agents."

4. TEACHER / EVALUATOR DEFENSE SHEET (TOUGH QUESTIONS & EXACT ANSWERS)

Q1: "Is this application providing unauthorized legal counsel?"

Answer: "No, Sir/Madam. We have strict standing disclaimers across every page stating this is educational navigation grounded in codified statutes. We never issue patent certificates; we guide innovators on what to file before meeting registered patent agents."

Q2: "How is this different from asking ChatGPT or Gemini?"

Answer: "Generic LLMs frequently hallucinate fake legal sections or confuse US law with Indian law. Our platform uses a curated Statutory RAG engine with 25+ verified acts. Crucially, we implemented **Safe Abstention** — if the evidence isn't 100% verified, our system refuses to answer."

Q3: "What is TKDL and why does Section 3(p) matter for Ayurveda?"

Answer: "TKDL (Traditional Knowledge Digital Library) holds 4.4 Lakh ancient Indian formulations. Section 3(p) of the Patents Act prevents patenting traditional knowledge. Our system checks this so innovators avoid wasted filings and focus on patenting novel synergistic improvements (Section 3e)."

Q4: "What is NBA Form 3 and ABS compliance under BDA 2024?"

Answer: "Under the Biological Diversity Act, commercial use of Indian biological resources requires National Biodiversity Authority (NBA) approval and sharing 3.0% to 5.0% of benefits with local tribal and indigenous conservation communities."

Q5: "What is the underlying technology stack?"

Answer: "Pure, high-performance vanilla HTML5, CSS3, and modern JavaScript bundled into a lightweight, self-contained 300KB engine. It requires zero backend server, works 100% offline via Service Worker, and renders instantly on any projector or mobile device."
